

# TORRINGTON

## Product Information & Data Sheet

Torrington natural stone veneer is a rustic low height ledgestone. The stones showcase a beautiful depth of color within each individual piece which creates stunning visual interest and character on large- and small-scale projects. The pieces range in color from shades of brown, rust, black, deep blue and light grey. The rustic feel of Torrington complements residences such as a Northwoods lake house or a mountain lodge. The smaller pieces of thin stone veneer can be installed with a mortar joint between them or drystacked with a tight fit installation. With a drystack installation, increases in both the mason's time and waste factor should be figured in.

### Flats Dimensions

Heights: 1" - 5"

Lengths: 4" - 12"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 1" - 5"

Lengths: 3"-5" x 6"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

### Stone Characteristics

Colors: Copper Tones, Gold Tones, Grey Tones

Style: Ledgestone

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
