

CASCADE

Product Information & Data Sheet

Cascade is a tumbled ashlar style natural thin stone veneer. The stone has a full color range of tans and soft browns along with shades of blue and grey. The stark contrast in colors creates a dramatic yet cohesive appearance. This product is exactly as mother nature intended as the stones all come from the same quarry. It is expected to see some changes in the stone as we quarry deeper, but this beautiful drastic difference in color is unique to Cascade. If desired, we are able to accommodate color requests for this stone to have a greater percentage of grey/blue tones or tan/brown tones.

Flats Dimensions

Heights: 2" - 8"
Lengths: 4" - 18"
Depths: ¾" - 1½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Stone Characteristics

Colors: Earthy Browns, Grey Tones, Sky Tones
Style: Ashlar
Finish: Tumbled

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
