

# CHARCOAL CANYON

## Product Information & Data Sheet

Charcoal Canyon is a classic ashlar style grey and light black real stone veneer. The veneer is a natural blend of the exterior and interior faces of the natural sheets of stone. This blend of faces adds depth of color while retaining a cohesive look as all the pieces have been cut from the same stone. The darker pieces of stone are cut from the top and bottom of the slabs whereas the flat grey pieces come from the interior. Mixing the faces also creates contrasting textures. The darker pieces have a smooth texture as opposed to the grey pieces which have a more sandpaper like texture. Charcoal Canyon remains a favorite for its neutral colors that have just the right blend of depth and cohesion.

### Flats Dimensions

Heights: 2" - 8"  
Lengths: 4" - 18"  
Depths: ¾" - 1½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"  
Lengths: 3"-5" x 8"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Grey Tones  
Style: Ashlar  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
