

AMBROSE

Product Information & Data Sheet

Ambrose is a dimensional style stone with a beautiful range of colors. A natural limestone, Ambrose has vibrant colors that set it apart due to the mineral staining. This natural stone veneer is well suited for both large and small scale walls. Ambrose is shown here with heights of 2.25", 5" and 7.75". For very large projects we can also add 10.5" and 14.25" heights if desired. The stone is cut specifically for a half inch mortar joint and shown with standard grey mortar. Ambrose has a natural finish and clean cut sawn edges. This formal looking style of stone is sometimes referred to as sawn height or tailored. Installation of dimensional style stones like Ambrose goes quickly due to the set heights.
