

BLACKBURN

Product Information & Data Sheet

Blackburn is a dark grey and black castle rock style thin stone veneer. The dark tones and blocky pieces make Blackburn a bold and impressive stone choice. The large rectangular castle rock style pieces of real stone veneer have an unusually smooth texture.

The pieces are natural bedface and have been split with a hydraulic press on all four sides. The term bedface comes from the quarrying word natural bed, which refers to the flat horizontal surface or layer of the quarry. If you were to walk across the quarry, the surface you walk on is the natural bed. The horizontal surface retains the minerals, giving Blackburn its color.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:

Flats Dimensions

Heights: 2" - 12"
Lengths: 4" - 18"
Depths: $\frac{3}{4}$ " - 1 $\frac{1}{2}$ "
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: $\frac{3}{4}$ " - 1 $\frac{1}{2}$ "
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Grey Tones
Style: Castle Rock
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
