

SHERIDAN

Product Information & Data Sheet

Sheridan real thin stone veneer is cut from natural Wisconsin quarried dolomitic limestone. Wisconsin limestone is known for its durability due to its high strength and low water absorption. Sheridan is uniquely colorful for a limestone with the colors coming from an abundance of natural mineral staining. The tumbling process complements the stone by softening and muting the vibrant colors. Tumbling the stone pieces brings the stones together to create a cohesive look that flows on the finished wall. Sheridan's individual pieces of stone are all roughly rectangular and are intended to be installed in a linear fashion.

Flats Dimensions

Heights: 2" - 8"
Lengths: 4" - 18"
Depths: ¾" - 1½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Copper Tones, Gold Tones, Grey Tones
Style: Ashlar
Finish: Tumbled

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
