

# YORKSHIRE

## Product Information & Data Sheet

Yorkshire real thin stone veneer is a hand-picked fieldstone. The pieces of stone each have a unique size and shape with semi-consistent earthy brown tones. This rustic and old-world stone is only sawn on the back to create the thin veneer. The front of the stone and all four sides are completely unaltered allowing the true organic beauty of natural fieldstone to shine.

&nbsp;

The random shapes of Yorkshire fieldstone create a web-like mosaic pattern which allows your mason to design one-of-a-kind patterns on both large and small projects. Yorkshire is 100% natural handpicked fieldstone with a rustic countryside look. The stone is shown here with a half-inch grey raked mortar joint.

### Flats Dimensions

Heights: 4" - 12"  
Lengths: 4" - 18"  
Depths: ¾" - 1-½"  
Weight: 13 - 15 lb. per square foot

### Stone Characteristics

Colors: Earthy Browns  
Style: Mosaic  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
