

# DENALI

## Product Information & Data Sheet

Denali natural stone veneer is a high-density sandstone cut into rough rectangles forming the castle rock style. The stone gets its abundance of color from the heavy mineral staining. The mineral staining occurred naturally in the quarry over time as water washed minerals between the individual layers of stone. The colors include blue, light grey, tan and brown. Denali also has a very rugged and unique texture with a mix of dimpled, smooth, and wavy pieces. This stone is sold as individual pieces intended to be installed by a professional masonry contractor. If you are looking for a rustic and colorful thin stone veneer Denali is a great choice.

### Flats Dimensions

Heights: 2" - 12"  
Lengths: 4" - 18"  
Depths:  $\frac{3}{4}$ " - 1 $\frac{1}{2}$ "  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"  
Lengths: 3"-5" x 8"-12"  
Depths:  $\frac{3}{4}$ " - 1 $\frac{1}{2}$ "  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Earthy Browns, Sky Tones  
Style: Castle Rock  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
