

# ENGLISH TUDOR

## Product Information & Data Sheet

English Tudor real stone veneer showcases the earthy brown tones of natural fieldstone. This eye-catching veneer is cut from natural fieldstone that has been handpicked and sorted. The fieldstone is sawn on the top and bottom with natural edges on two sides. The sawing process allows the mason to install the stone in a linear fashion which creates a unique and beautiful look for fieldstone. The individual pieces have their own size and shape and are not cut to a specific size like dimensional stone. English Tudor blends the rustic countryside look of fieldstone with a modern look created by the clean lines during the sawing process. The stone is shown here with a half inch grey raked mortar joint.

### Flats Dimensions

Heights: 2" - 8"  
Lengths: 4" - 18"  
Depths: ¾" - 1½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"  
Lengths: 3"-5" x 8"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot

### Stone Characteristics

Colors: Earthy Browns  
Style: Ashlar  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
