

HALCYON

Product Information & Data Sheet

Halcyon is a gold, grey, and cream tone real stone veneer cut into the dimensional style with a tumbled finish. The quarrying process for Halcyon is unique and somewhat more intricate and involved than our other natural stone veneers. Halcyon is not peeled up or extracted in layers. Instead, the quarry is carefully blasted with small charges of dynamite in a grid pattern. This engineered blasting creates consistent blocks of natural limestone roughly similar to the size of a car. The blocks are sawn into sheets of stone with thicknesses of 2.25", 5", and 7.75". Once these steps are complete, the usable sheets go through the standard processes of splitting, tumbling, and sawing.

Flats Dimensions

Heights: 2-1/4", 5", 7-3/4"

Lengths: 4" - 16"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2-1/4", 5", 7-3/4"

Lengths: 3"-5" x 8"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Gold Tones

Style: Dimensional

Finish: Tumbled

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
