

# HARBOR SPRINGS

## Product Information & Data Sheet

Harbor Springs natural stone veneer is a beautiful machine cut Wisconsin quarried limestone. The stone has a mix of pieces with warm buff tones and cool blue veining. This real stone veneer showcases the interior part of the stone that has been broken or split with a hydraulic press and is sometimes called "split-face". Harbor Springs has relatively smooth and consistent textures. It consists of medium-sized pieces intended to be installed in a linear fashion forming the ashlar style. The soft neutral colors make Harbor Springs a best seller and a great choice for exterior applications.

### Flats Dimensions

Heights: 2" - 8"

Lengths: 4" - 18"

Depths: ¾" - 1½"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Natural Tones, Sky Tones

Style: Ashlar

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
