

# HARTFORD

## Product Information & Data Sheet

Hartford natural thin veneer is the stone of choice for those searching for darker tones with a soft, tumbled finish. From soft flat greys to swirling multidimensional dark navy tones, it is all present within Hartford. Although most of our products can be tumbled, the process lends itself to some stones more than others. The tumbling process rounds the edges of the stone and softens the colors; it also accentuates the patterns and textures within Hartford. This natural stone veneer is truly a prime example of what tumbling can do for a stone.

### Flats Dimensions

Heights: 2" - 8"  
Lengths: 4" - 18"  
Depths: ¾" - 1½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"  
Lengths: 3"-5" x 8"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot
