HERITAGE

Product Information & Data Sheet

Heritage natural stone veneer is a low height ledgestone with smaller pieces of stone installed in a linear fashion. The thin veneer is cut from natural sandstone and is uniquely irregular. The tops and bottoms of the pieces of Heritage are natural; they do not have sawn or split edges. The edges are a true representation of the natural slabs or sheets of stone just as they are quarried. The raw stone used to make Heritage comes from the top layers of the quarry and has greater variation giving the stone a natural and rustic look.

Flats Dimensions

Heights: 1″ - 5″
Lengths: 4″ - 12″
Depths: ¾″ - 1-½″
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 1″ - 5″
Lengths: 3″-5″ x 6″-12″
Depths: ¾″ - 1-½″
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Earthy Browns, Gold Tones
Style: Ledgestone
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
