

KENSINGTON

Product Information & Data Sheet

Kensington is a natural granite castle rock style thin stone veneer. The blocky pieces are machine split into rectangles of various sizes. Kensington is a natural granite with unique colors. Granite pieces have a speckled or what is sometimes referred to as salt and pepper appearance upon close inspection. Kensington not only has the salt and pepper speckled appearance but adds a range of browns and tans with subtle rust tones. This is a stone we import from overseas as there is nothing like it in the United States. The quality of the stone is vetted and we check every pallet to confirm it meets our high standards for premium quality stone. This stone is ready to ship today.
