

MALAHIDE

Product Information & Data Sheet

Malahide natural thin veneer is an old-world stone known for its smaller tumbled pieces. The stone has a tumbled finish and lends itself to a flush or overgrout mortar technique which takes you back to a time when stone was used structurally. Malahide is a blend of buffs and light greys with a smaller percentage of darker charcoal colored pieces. The individual pieces of stone have some visible veining upon closer inspection. Malahide gives flexibility to the mason over the final appearance in that this natural stone veneer can be installed more linearly or in a random mosaic pattern.

Flats Dimensions

Heights: 4" - 12"
Lengths: 4" - 18"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 4" - 12"
Lengths: 3"-5" x 6"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Grey Tones, Natural Tones
Style: Mosaic
Finish: Tumbled

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
