

# MEDITERRA

## Product Information & Data Sheet

Mediterra is a natural limestone thin veneer in the mosaic style. The stone has an unusually rough and rugged texture. The real stone veneer consists of relatively small pieces of irregular shaped stones; the individual pieces aren't necessarily small but they are smaller in diameter than most of our other mosaic style veneers. A natural veneer like Mediterra is sometimes referred to as rubble in the stone industry. Mediterra has a beautifully understated range of color. From a distance, the stone shows cream and gold tones, but upon closer inspection, you can see the darker tones within the stone.

### Flats Dimensions

Heights: 4" - 12"

Lengths: 4" - 18"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 4" - 12"

Lengths: 3"-5" x 6"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

### Stone Characteristics

Colors: Gold Tones, Natural Tones

Style: Mosaic

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
