

MOJAVE

Product Information & Data Sheet

Mojave is a timeless natural thin cut limestone veneer with a slightly rough texture. The veneer has beautiful color and texture variations and is amazingly all cut from the same limestone. Mojave's cream tones show the raw or interior part of the limestone, whereas, the tans and browns show the exterior part of the stone slabs. When looking at the finished veneer, the different colors and textures complement each other perfectly as this is how the stone exists in nature. If you were to walk through the quarry, these are the same colors and percentage of each you would see.

Flats Dimensions

Heights: 2" - 8"

Lengths: 4" - 18"

Depths: 3/4" - 1 1/2"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Earthy Browns, Gold Tones, Natural Tones

Style: Ashlar

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
