

MONACO

Product Information & Data Sheet

Monaco is a natural thin limestone veneer in the mosaic or webwall/webstone style. This stone is sought after for its warm buff and gold tones. Monaco embodies the feel of a historic Mediterranean villa. The features of this stone pair well with a terracotta roof and crawling vines as the stone covers the walls of a garden or courtyard. Aside from being sawed on the back, the pieces of stone are completely natural and showcase the irregular shapes just as they come out of the ground. The natural shapes contribute to the old world feel of Monaco as the mosaic style was the most common stone style prior to the invention of modern stone processing equipment.

Flats Dimensions

Heights: 4" - 12"

Lengths: 4" - 18"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 4" - 12"

Lengths: 3"-5" x 6"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Gold Tones

Style: Mosaic

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
