

OAK CANYON

Product Information & Data Sheet

Oak Canyon is a castle rock or square-rec style real stone veneer. Sheets of natural sandstone are unearthed and split with a large guillotine hydraulic press into rectangles. Within the stone industry this process is referred to as chopping as the stone that has been split has chopped edges. Looking closely at the individual pieces of stone you can see they have roughly straight lines while retaining a semi-rustic look. Oak Canyon has a natural mix of lighter earth tones and sandy browns. Due to the larger individual pieces of stone, Oak Canyon is best suited for large projects and makes for a great exterior option.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:

Flats Dimensions

Heights: 2" - 12"
Lengths: 4" - 18"
Depths: $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Earthy Browns, Gold Tones,
Natural Tones
Style: Castle Rock
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
