

# PIONEER

## Product Information & Data Sheet

Pioneer is a natural hand-picked fieldstone that is sawed into thin stone veneer. The stone has neutral and pleasing earth tones with a soft and natural texture. Pioneer showcases the fieldstone in its completely natural state with irregular shapes. Some fieldstones are split with a hydraulic press to form ashlar, ledgerstone, or castle rock style stones, whereas, Pioneer is unaltered and forms a mosaic style. Pioneer is subject to greater variation due to being a fieldstone product. This variation adds character and beauty to the unique look of Pioneer. The individual pieces give flexibility to the mason over the final appearance as the stone can be laid in a more linear fashion if desired.

### Flats Dimensions

Heights: 4" - 12"  
Lengths: 4" - 18"  
Depths: ¾" - 1-½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 4" - 12"  
Lengths: 3"-5" x 6"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Earthy Browns, Grey Tones,  
Natural Tones  
Style: Mosaic  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
