

# POTOMAC

## Product Information & Data Sheet

Potomac is a beautiful castle rock style natural thin stone veneer. The thin stone is cut from high density sandstone. The sheets or slabs of natural stone are quarried then cut into large rectangles with a hydraulic press. The blocks of stone are fed into the saw to be cut to a thickness of 1.25" creating the thin veneer. The broad range of colors come from the natural mineral compositions within the ground. The colors include browns ranging from light tan to dark and greys ranging from soft to almost black. The large pieces of Potomac make it great for exteriors or large projects with a lot space to cover.

### Flats Dimensions

Heights: 2" - 12"  
Lengths: 4" - 18"  
Depths: ¾" - 1-½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"  
Lengths: 3"-5" x 8"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Earthy Browns, Gold Tones, Grey Tones, Sky Tones  
Style: Castle Rock  
Finish: Natural

### Packaging

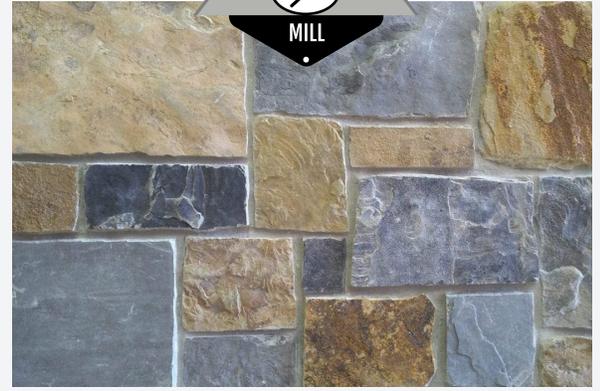

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
