

# RUSTIC RIDGE

## Product Information & Data Sheet

Rustic Ridge thin stone veneer is a blend of natural Wisconsin quarried limestones. The blend showcases the range of colors and textures that can be achieved when blending stone from just two quarries. The flat grey pieces have a smooth texture and show the interior part of the stone which is exposed when split with a hydraulic press. The gold and blue/grey pieces showcase the bedface (top and bottom) of the natural sheets of stone as they are unearthed. The gold and blue/grey pieces both have a pimply texture and come from the same quarry and sometimes even the same raw slab of stone. The color difference comes from the varying mineral composition within the ground.

### Flats Dimensions

Heights: 2" - 8"

Lengths: 4" - 18"

Depths: ¾" - 1½"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot

Angle: 90

### Stone Characteristics

Colors: Gold Tones, Grey Tones

Style: Ashlar

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
