

SOHO

Product Information & Data Sheet

SoHo is a very dark almost black dimensional cut natural thin stone veneer. The stone is cut from natural granite and is one of the darkest stones we offer. The dark black color of SoHo is not a common color in nature making the stone that much more unique. SoHo is predominately black with streaks of white and occasional white undertones. This depth of color and subtle variation is what makes natural stone so beautiful. SoHo is cut to heights of 2.25", 5", and 7.75" in random lengths. This dimensional or sawed height style makes for a quick and relatively easy installation.
