

SPLIT FIELDSTONE

Product Information & Data Sheet

Split Fieldstone is natural glacial deposit granite that we split with a hydraulic press to show the interior part of the stone. The interior part of natural granite shows the raw colors of the stone itself. There are some salt and pepper pieces, some reds, some sparkles, and some blacks which together create a beautiful blend of colors. This granite is one of the hardest stones in terms of compressive strength that we work with. Creating the split fieldstone is unusually difficult and labor-intensive due to the hardness of the granite and the shape of the pieces. Split Fieldstone has irregular, round, or egg-shaped pieces before being split. The hydraulic press puts 300 tons of pressure to split the fieldstone and the irregular shaped pieces have a tendency to jump off the press. The shapes, colors, and beauty of Split Fieldstone make this one of our most unique products.

Flats Dimensions

Heights: 4" - 12"
Lengths: 4" - 18"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 4" - 12"
Lengths: 3"-5" x 6"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Copper Tones, Gold Tones, Grey Tones
Style: Mosaic
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

Natural stone varies in color, shape and veining from piece to piece. Photos used are meant to be as accurate as possible in depicting the product. Photos of stone are meant to give a general idea but should not be used for exact color matching.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
