

STONEGATE

Product Information & Data Sheet

Stonegate is a classic and traditional choice for a natural limestone veneer. The stone is neutral and complementary allowing design flexibility with other siding, roofing, and flooring elements. Stonegate is predominantly an off white or buff tone with shades of grey. The stone has a slight amount of natural veining that looks similar to light pencil lines across parts of the stone. The veining is not visible from a distance but its detail and uniqueness are revealed upon close inspection. The depth and character of the veining in Stonegate can only be found in natural stone. Stonegate is considered an ashlar pattern but is on the rougher end as it is created to be less linear and clean-cut than some of our other ashlar options.

Flats Dimensions

Heights: 2" - 8"

Lengths: 4" - 18"

Depths: ¾" - 1½"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Grey Tones, Natural Tones

Style: Ashlar

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
