

# STRATFORD

## Product Information & Data Sheet

Stratford is one of our best-selling natural stone veneers. This stone is a classic tumbled limestone in an ashlar or random ashlar pattern. Stratford has a pleasing and neutral blend of colors that make it a versatile exterior siding option. The thin stone can be used as exterior masonry in applications ranging from complementing grey stucco to contrasting red brick. The stone appears semi-monochromatic from a distance but upon closer inspection you can see whites, creams, soft tans and a full range of greys. The individual pieces of stone will also have some natural horizontal veining from the layering within the limestone itself.

### Flats Dimensions

Heights: 2" - 8"  
Lengths: 4" - 18"  
Depths: ¾" - 1½"  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"  
Lengths: 3"-5" x 8"-12"  
Depths: ¾" - 1-½"  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Grey Tones, Natural Tones  
Style: Ashlar  
Finish: Tumbled

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
