

COASTAL MIST

Product Information & Data Sheet

Coastal Mist is an off-white natural limestone thin veneer in the dimensional (sawed height) style. The veneer is sawed to three set heights and predominantly shows the interior part of the natural stone. Coastal Mist is referred to as a split face or machine-cut stone because it is sawn using a hydraulic press. The individual pieces are mostly neutral and monochromatic, however, there is a small percentage of more colorful pieces. The more colorful pieces come from the outer exposed parts of the natural stone and were stained by minerals over the years. The colorful pieces have a different texture than the neutral pieces and add little splashes of color to the wall.

Flats Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "
Lengths: 4" - 16"
Depths: $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "
Lengths: 3"-5" x 8"-12"
Depths: $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Gold Tones, Grey Tones, Natural Tones
Style: Dimensional
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
