

COUNTRY SNOW

Product Information & Data Sheet

Country Snow is a modern white natural thin cut stone veneer in consistent six-inch heights. We often get calls asking which stone is lightest, brightest, and whitest and the answer is Country Snow. The stark or bright white stone shows the split face of the natural limestone slab. Country Snow is split with a hydraulic press and sawed on the remaining five sides. Dimensional style stones like Country Snow are fast and easy to install due to the consistent heights. The stone can be installed drystacked (as shown) or with a mortar joint where the finished product is installed in rows or course heights.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:

We have resources to help with everything from mortar joint selection to a full PDF install guide.

Flats Dimensions

Heights: 6"
Lengths: 4" - 16"
Depths: $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "
Weight: 13 - 15 lb. per square foot

Stone Characteristics

Colors: Natural Tones
Style: Dimensional
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
