

# LENEXA

## Product Information & Data Sheet

Lenexa is a classic dimensional style stone with unique and consistent dark tones. This natural limestone has a split face and showcases the interior part of the stone. Lenexa has some subtle natural veining within the individual pieces. This natural stone veneer is well suited for both large and small scale projects. Lenexa is shown here with heights of 2.25", 5" and 7.75", however, we can add larger heights depending on the overall scale of the project. With being a dimensional stone, it is cut specifically for a half inch mortar joint and shown here with standard grey mortar. Lenexa can be cut into custom sizes if drystacking is desired but that will increase both the price and lead time.

### Flats Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "  
Lengths: 4" - 16"  
Depths:  $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "  
Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "  
Lengths: 3"-5" x 8"-12"  
Depths:  $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "  
Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Grey Tones  
Style: Dimensional  
Finish: Natural

### Packaging

Sold as loose pieces.  
Flat Pallet: 150 square feet  
Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
