

# LOCKRIDGE

## Product Information & Data Sheet

Lockridge is a quintessential grey toned dimensional real stone veneer. From a distance the stones appear to be a solid and singular color, however, upon closer inspection one can see the unique veining. Some pieces have solid horizontal lines running through the stone, whereas, others have a more speckled appearance. Every individual piece has its own character, a quality that can only be achieved with natural stone. Lockridge has sawn heights of 2.25", 5" and 7.75" and is cut specifically for a half inch mortar joint. Larger heights are available upon request depending on the scale of the project.

### Flats Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "

Lengths: 4" - 16"

Depths:  $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "

Lengths: 3"-5" x 8"-12"

Depths:  $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "

Weight: 20 lb. per linear foot

Angle: 90

### Stone Characteristics

Colors: Grey Tones, Natural Tones

Style: Dimensional

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
