

LONDON

Product Information & Data Sheet

London is one of our more popular natural thin stone veneers with its undeniable rustic beauty. The thin stone is cut from natural hand-picked fieldstone. After the fieldstone is collected from centuries-old fence lines, it is squared up with the hydraulic presses. This process of chopping the naturally irregular fieldstone into the more formal squares and rectangles adds another element of visual appeal. London has heavy variations in the colors but primarily consists of a blend of earth tones. This color variation comes from the individual pieces of stone and where they were located within the pile on the fence line.

Flats Dimensions

Heights: 2" - 12"
Lengths: 4" - 18"
Depths: ¾" - 1-½"
Weight: 13 - 15 pounds

Corner Dimensions

Angle: 90 degrees
Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 pounds per linear foot

Stone Characteristics

Colors: Earthy Browns, Gold Tones, Grey Tones, Natural Tones
Style: Castle Rock
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 100 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
