# LONDON

## Product Information & Data Sheet

London is one of our more popular natural thin stone veneers with its undeniable rustic beauty. The thin stone is cut from natural hand-picked fieldstone. After the fieldstone is collected from centuries-old fence lines, it is squared up with the hydraulic presses. This process of chopping the naturally irregular fieldstone into the more formal squares and rectangles adds another element of visual appeal. London has heavy variations in the colors but primarily consists of a blend of earth tones. This color variation comes from the individual pieces of stone and where they were located within the pile on the fence line.

#### Flats Dimensions

Heights: 2" - 12" Lengths: 4" - 18" Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

## **Stone Characteristics**

Colors: Earthy Browns, Gold Tones, Grey Sold as loose pieces.

Tones, Natural Tones Style: Castle Rock

Finish: Natural

#### **Corner Dimensions**

Heights: 2" - 8" Lengths: 3"-5" x 8"-12" Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle:

## **Packaging**

Flat Pallet: 150 square feet Corner Pallet: 50 linear feet

### **Applications**

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

## \$\tag{\text{https://quarrymill.com/shop/london/}}

Natural stone varies in color, shape and veining from piece to piece. Photos used are meant to be as accurate as possible in depicting the product. Photos of stone are meant to give a general idea but should not be used for exact color matching.

### **LEED® Certification & Energy Efficiency**

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.
