MADISON
Product Information & Data Sheet

Madison natural thin stone veneer is a classic choice for a rustic limestone. The stone is a rough-cut split face limestone in shades of grey, buff/cream, and tan. Although Madison is an ashlar style stone, the individual pieces are inconsistent in terms of their shapes. Some ashlar stones are naturally very straight and strip-like, whereas Madison could almost resemble a fieldledge style. Madison's inconsistency is what gives it its beauty and creates a look that can only be achieved with natural stone. The shapes also give flexibility to the mason over the final design.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:

Flats Dimensions

Heights: 2" - 8"
Lengths: 4" - 18"
Depths: ¾" - 1½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Gold Tones, Grey Tones, Natural Tones
Style: Ashlar
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
