

NEWTON

Product Information & Data Sheet

Newton is a dimensional cut real limestone veneer with unique colors from natural mineral staining. The natural stone veneer is sawn to heights of 2.25", 5", and 7.75". Newton is a clean-cut and formal-looking natural stone veneer due to the course heights of the individual pieces. This also makes for a quicker and typically less expensive installation.

For large scale projects, larger heights of 10.5" and 13.25" are available upon request. The larger height pieces are referred to as "jumpers"; when the stone is installed on a vertical wall in rows, the larger height pieces "jump" up an extra row.

Flats Dimensions

Heights: 2-¼", 5", 7-¾"
Lengths: 4" - 16"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Stone Characteristics

Colors: Natural Tones
Style: Dimensional
Finish: Natural

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

Natural stone varies in color, shape and veining from piece to piece. Photos used are meant to be as accurate as possible in depicting the product. Photos of stone are meant to give a general idea but should not be used for exact color matching.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
