

# NEWTON

## Product Information & Data Sheet

Newton is a dimensional cut real limestone veneer with unique colors from natural mineral staining. The natural stone veneer is sawn to heights of 2.25", 5", and 7.75". For large scale projects, larger heights of 10.5" and 13.25" are available upon request. The larger height pieces are referred to as "jumpers"; when the stone installed on a vertical wall in rows the larger height pieces "jump" up an extra row. Newton is a clean cut and formal looking natural stone veneer due to the course heights of the individual pieces. This also makes for a quicker and typically less expensive installation.

### Flats Dimensions

Heights: 2-1/4", 5", 7-3/4"

Lengths: 4" - 16"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2-1/4", 5", 7-3/4"

Lengths: 3"-5" x 8"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot  
Angle: 90

### Stone Characteristics

Colors: Natural Tones

Style: Dimensional

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
