SILVER CLOUD
Product Information & Data Sheet

Silver Cloud is an elegant dimensional stone with semi-consistent color tones including light blue/grey, buff and soft charcoal. The thin stone veneer showcases the interior part of the natural quarried limestone that has been split with a hydraulic press. One of the neat and unique things about Silver Cloud is there are some visible fossils within the stone. This natural stone veneer is dimensional cut into heights of 2.25″, 5″ and 7.75″. Larger heights are available upon request. The stone is shown with a standard half-inch grey raked mortar joint between the individual pieces.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:

Lengths: 4″ – 16″
Depths: ¾″ – 1-½″
Weight: 13 – 15 lb. per square foot

Corner Dimensions

Heights: 2-¼″, 5″, 7-¾″
Lengths: 3″-5″ x 8″-12″
Depths: ¾″ – 1-½″
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Grey Tones
Style: Dimensional
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
