

SILVERADO

Product Information & Data Sheet

Silverado is a classic ashlar style stone with a natural finish. The natural stone veneer has both light and dark tones with some horizontal veining running through the pieces. Silverado showcases both the interior part (due to being split with a hydraulic press) as well as the natural bed. It is broad in terms of applications due to the medium sized pieces and well suited for both large and small scale walls. Silverado is sold as loose pieces of stone ranging from 2"-8" inches in height. The stone is shown with a standard half-inch grey raked mortar joint between the individual pieces. This is the most common installation method, however, other joint options and mortar colors can be used.

Flats Dimensions

Heights: 2" - 8"
Lengths: 4" - 18"
Depths: ¾" - 1½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Grey Tones, Natural Tones
Style: Ashlar
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
