

TENBURY

Product Information & Data Sheet

Tenbury real stone veneer is a dimensional cut limestone that truly sparkles. The soft sparkle that shines as the light reflects off the crystals within the stone adds character and elegance to any project. Tenbury has semi-consistent tones of buff and shades of grey. The stone is split or machine cut and showcases the interior part of the natural limestone. This thin stone veneer is dimensional cut into three heights 2.25", 5", and 7.75". It is intended to be installed with a half inch mortar joint (as shown). Larger heights are available upon request depending on the scale of your project.

Flats Dimensions

Heights: 2-1/4", 5", 7-3/4"

Lengths: 4" - 16"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

Style: Dimensional

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
