

# TWILIGHT

## Product Information & Data Sheet

Twilight natural thin veneer is a blend of light and dark stones brought together with a tumbled finish. The pieces have a unique and heavy contrast compared to our other natural stone veneer offerings. The majority of the stones are lighter pieces of primarily off-white tones with some greys and tans. The darker black pieces of stone really pop against the lighter surrounding pieces. Twilight is a natural limestone with a sandpaper like texture. The stone creates a natural ashlar pattern of medium size pieces laid in a linear fashion.

### Flats Dimensions

Heights: 2" - 8"  
Lengths: 4" - 18"  
Depths: ¾" - 1½"  
Weight: 13 - 15 lb. per square foot

### Stone Characteristics

Colors: Grey Tones, Natural Tones  
Style: Ashlar  
Finish: Tumbled

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
