

TWILIGHT

Product Information & Data Sheet

Twilight natural thin veneer is a blend of light and dark stones brought together with a tumbled finish. The pieces have a unique and heavy contrast compared to our other natural stone veneer offerings. The majority of the stones are lighter pieces of primarily off-white tones with some greys and tans. The darker black pieces of stone really pop against the lighter surrounding pieces. Twilight is a natural limestone with a sandpaper like texture. The stone creates a natural ashlar pattern of medium size pieces laid in a linear fashion.

Flats Dimensions

Heights: 2" - 8"

Lengths: 4" - 18"

Depths: ¾" - 1½"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
