

WHITNEY

Product Information & Data Sheet

Whitney is a natural hand-picked fieldstone veneer in a rough ledgestone style. Each individual piece of stone has some weathering giving it a variety of color and texture. Whitney falls into the ledgestone category, but it is more irregular than a typical ledgestone. This irregularity is due to the sawing process. The thin veneer is created by sawing only the natural edges of the pieces of raw fieldstone. The pieces of fieldstone used to create Whitney are about the size of a small tire but not necessarily round. Whitney is only cut from the outside edge where the tread on a tire would be. The stone retains its rustic appeal with a natural top and bottom.

Flats Dimensions

Heights: 1" - 5"

Lengths: 4" - 12"

Depths: 3/4" - 1-1/2"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 1" - 5"

Lengths: 3"-5" x 6"-12"

Depths: 3/4" - 1-1/2"

Weight: 20 lb. per linear foot

Angle: 90

Stone Characteristics

Colors: Earthy Browns, Gold Tones, Natural Tones

Style: Ledgestone

Finish: Natural

Packaging

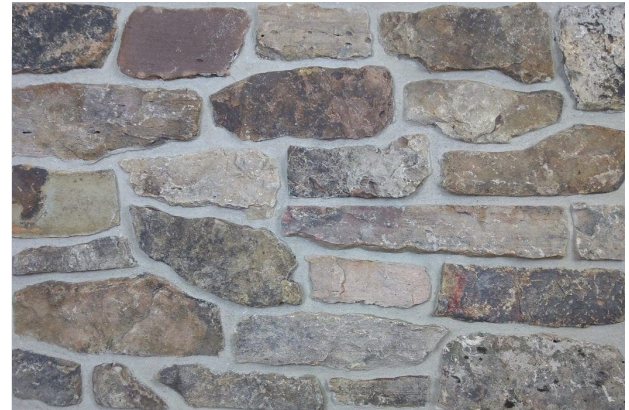

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
