

WINTER ASH

Product Information & Data Sheet

Winter Ash is an off-white natural limestone thin veneer with a tumbled finish. The stone is considered a fieldledge style stone due to the loose linear pattern that is created with roughly linear pieces as well as some irregular pieces. With its variety of pieces, Winter Ash allows your mason more flexibility to add their own touch of art to your one-of-a-kind project.

The tumbled finish adds cohesion to the mix of linear and irregular pieces. The monochromatic colors are soft and primarily off-white with a few splashes of grey. Winter Ash is a great option for creating an old-world exterior. This stone can be installed with a half-inch mortar joint as shown. It can also be installed using an overgrout technique to enhance the old-world appearance.

Flats Dimensions

Heights: 2" - 10"
Lengths: 4" - 18"
Depths: ¾" - 1-½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 10"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Natural Tones
Style: Fieldledge
Finish: Tumbled

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
