

TAHOE

Product Information & Data Sheet

Tahoe stones bring a diverse assortment of tans, browns, and random spots on many of the stones that create a very unique, random spectrum. This natural stone veneer is a great choice for modern and rustic homes. The various stone sizes and unusual shapes make flexible enough for large and small projects. Tahoe's array of colors will make it a real attention-getter. Properly accessorized, this stone can still create depth behind antiques and artwork.

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
