

TUSCAN ANTIQUE

Product Information & Data Sheet

Tuscan Antique is a beautiful tumbled natural limestone veneer. This stone has a range of mostly gold tones with a few grey and light brown pieces in the mix. The tumbling process softens the edges and makes for a smoother texture. Although our display shows a raked mortar joint for consistency, Tuscan Antique lends itself to the flush or overgrout techniques of old-world architecture. Using a flush or overgrout technique takes you back to the times when stone was used structurally in the construction process. This is the perfect stone if your goal is to replicate a classic Italian villa.
