

TUSCANY

Product Information & Data Sheet

Tuscany is a natural thin stone veneer that embodies the warm tones of Mediterranean inspired design. The natural limestone has an unusually coarse texture. Tuscany showcases the interior part of the limestone or what is also called the split-face. Some of our natural stone veneers break very smoothly and cleanly when they are split with the hydraulic press, whereas, Tuscany naturally breaks very coarsely leaving a natural look to the split stone. The stone has shades of mostly gold with occasional grey pieces. Our mock-up shows the stone with a raked mortar joint; Tuscany also lends itself to a flush or overgrout installation.

Flats Dimensions

Heights: 2" - 8"

Lengths: 4" - 18"

Depths: ¾" - 1½"

Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Gold Tones

Style: Ashlar

Finish: Natural

Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

Installation

Natural thin stone veneer installation information is available on our website:
