

ABERDEEN

Product Information & Data Sheet

Aberdeen is a classic ashlar-style dolomitic limestone with a traditional and timeless appearance. The stone has a range of gold and grey tones in various textures. Aberdeen is sold as loose pieces of stone ranging from 2"-8" inches in height. The pieces of stone have natural edges that have been split with a hydraulic press.

Aberdeen is ideal for a broad range of applications due to its medium-sized pieces. This stone is well suited for both large and small-scale walls. It is shown with a standard half-inch grey raked mortar joint between the individual pieces. This is the most common installation method, however, other joint options and mortar colors can be used.

Flats Dimensions

Heights: 2" - 8"
Lengths: 4" - 18"
Depths: ¾" - 1½"
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2" - 8"
Lengths: 3"-5" x 8"-12"
Depths: ¾" - 1-½"
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Gold Tones, Grey Tones
Style: Ashlar
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
