

# SILVERGATE

## Product Information & Data Sheet

Silvergate real stone veneer is a blend of natural Wisconsin quarried limestones. This product showcases stone from multiple quarries and different faces of the stone within the quarries. Different faces of the stone refers to the different sides or parts of the limestone slabs. The tops and bottoms of the slabs weather over time, whereas, the interior part does not weather at all. With Silvergate, the gold and larger darker grey pieces are the tops and bottoms of the slabs or what is called the bedface. The flat grey pieces are the interior part of the slabs and are referred to as machine cut or split face.

### Flats Dimensions

Heights: 2" - 8"

Lengths: 4" - 18"

Depths: ¾" - 1½"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot

Angle: 90

### Stone Characteristics

Colors: Gold Tones, Grey

Tones, Natural Tones

Style: Ashlar

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
