

VICTORIA

Product Information & Data Sheet

Victoria natural thin veneer is a classic dimensional cut stone. The stone shows the bedface of the natural limestone. The bedface or natural bed is the horizontal surface of the quarry; a new bed is exposed as each layer is quarried. The stone gets its range of colors from the rainwater washing in minerals between the layers over the millennia. Victoria has a natural texture that is smooth but slightly rippled. The standard thin stone has heights of 2.25", 5" and 7.75" but larger heights are available for large scale projects. The snapped edges make for crisp, clean lines and a formal look.

Flats Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "
Lengths: 4" - 16"
Depths: $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "
Weight: 13 - 15 lb. per square foot

Corner Dimensions

Heights: 2- $\frac{1}{4}$ ", 5", 7- $\frac{3}{4}$ "
Lengths: 3"-5" x 8"-12"
Depths: $\frac{3}{4}$ " - 1- $\frac{1}{2}$ "
Weight: 20 lb. per linear foot
Angle: 90

Stone Characteristics

Colors: Gold Tones, Natural Tones
Style: Dimensional
Finish: Natural

Packaging

Sold as loose pieces.
Flat Pallet: 150 square feet
Corner Pallet: 50 linear feet

Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.
