

# WESTGATE

## Product Information & Data Sheet

Westgate is a neutral real quartzite veneer in the castle rock style. The colors and shapes of the individual stones have a cohesive feel that can only be achieved with natural stone. Westgate is versatile and not defined by a single design aesthetic as it flows just as nicely in a modern condo as it does in a log cabin. The stone is an unusually hard quartzite and can be installed with a standard half-inch mortar joint or drystacked for a tight fit installation. The colors range from white to black with some tans and grays in the mix. There is some color streaking which is a natural occurrence that comes from how the ground minerals stained the stone over millennia. This a split back product. The split back will not have any impact on the installation or final appearance.

### Flats Dimensions

Heights: 2" - 12"

Lengths: 4" - 18"

Depths: ¾" - 1-½"

Weight: 13 - 15 lb. per square foot

### Corner Dimensions

Heights: 2" - 8"

Lengths: 3"-5" x 8"-12"

Depths: ¾" - 1-½"

Weight: 20 lb. per linear foot

Angle: 90

### Stone Characteristics

Colors: Earthy Browns, Gold Tones, Grey Tones, Natural Tones

Style: Castle Rock

Finish: Natural

### Packaging

Sold as loose pieces.

Flat Pallet: 150 square feet

Corner Pallet: 50 linear feet

### Applications

This natural stone veneer is approved for all applications due to its high compressive strength and low water absorption. It is well suited for exterior applications with a harsh climate.

### LEED® Certification & Energy Efficiency

Using natural stone veneer can contribute to obtaining credits toward your LEED green building certification. The natural material helps improve the energy efficiency of your home or business.

### Installation

Natural thin stone veneer installation information is available on our website:
